Seven motorists were arrested by Salem state highway patrolmen during the holiday weekend. Despite the heavy traffic, Monday especially, only four accidents were reported.

The drivers of two cars involved in a Benton road mishap at 7:30 p. m. Saturday were arrested, hauled into Mayor George Harp's court and fined.

Remo Marchetti, 29, of Detroit, Mich., who was alleged to have been going 70 miles an hour when he ran into the rear of a machine driven by Rolland Cronick, 21, of E. D. 1, Beloit, was fined \$25 and costs when he pleaded guilty to a charge of reckless driving.

Cronick, arrested for failing to signal when making a turn, was fined \$5 and costs. Corp. W. E. Gray and Patrolman Frank Horvath of the patrol made the arrests investigating the crash. No one was hurt.

## Driver Falls Asleep

Gerald Sanor, 19, of the Georgetown road, was treated at the Central Clinic for bruises and lacerations. He fell asleep while driving his automobile, left the road and struck a bridge on Route 62, six miles north of Salem, at 4:30 a. m. Sunday. Corp. Aray said the car was practically demolished.

Joseph Marra of Niles suffered a head bump when the car in which he was riding with Frank Rounds of Niles crashed into the rear of a machine operated by James E. Armstrong of New Castle on the same road, 500 feet west of city, at 6:30 p. m. Monday.

Armstrong's car was shoved forward into another owned by W. J. Hargrave of Canal Fulton.

Car driven by E. T. Pocci, 24, of Canton, and O. G. Austin of R. 2, Alliance, figured in a collision at the junction of Routes 62 and 165, north of Salem, at 1:30 a. m. yesterday.

No one was injured although Nellie Marie Carana, four months daughter of Mr. and Mrs. Nicholas Carana, who were riding in the Pocci car, was taken to City Hospital for examination. She was not hurt.

## California Homes Jarred By Quake

LOS ANGELES, May 31.—A giant earth slippage jarred a million Southern California homes at 12:35 a. m. (PST) this morning, but spared the area of damage.

The quake, one of the most severe since the disastrous one in 1933, was felt for 200 miles along the Pacific coast from Santa Barbara to San Diego and inland 150 miles to the Mojave desert and the Coachella valley.

Alarmed families were frightened out of sleep by the rippling, sidewise motion of the earth.

Long Beach, center of the destruction in '33, quickly reported "all's well," and other cities, such as Santa Barbara and San Jacinto, which were hard hit by past earthquakes, went through today's without harm.

## STRIKE ENDED, AKRON WORKERS RETURN TO JOBS

Conflicting Statements  
Only Clouds On Horizon  
Of Peace

## EMPLOYES BACK IN PLANTS TODAY

Union Leader Commends  
Members For Use of  
"Sane Judgment"

(By Associated Press)  
AKRON, May 31.—A peace clouded by conflicting statements prevailed at Goodyear Tire & Rubber Co. plants today as union employees returned to jobs they left to go on a strike of four days' duration.

Goodyear local of the CIO-affiliated United Rubber Workers of America last night voted by a 9-to-1 ratio, their leaders said, to end the strike and accept "certain concessions" from the company.

Union and non-union employees returned to the plants to resume operations at 6 a. m. without incident. Only two city patrolmen were in evidence. One police cruiser occupied by three officers was parked opposite No. 1 plant. Returning workers did not form groups, filing quietly into Goodyear gates.

Claim Settlement  
A statement from the union's executive board claimed "outstanding grievances" had been settled and "the company has pledged itself to conclude a written contract with the union." The statement said "certain facts indicate the strike itself was the result of a deliberate campaign."

The company replied in a formal statement that "any talk in the conferences about a signed agreement was limited to a mere expression of willingness on our part to discuss the subject at a future time."

"The charges made by the union that the strike called by its executives was inspired by a company plot are too ridiculous to be considered by any sane person," Goodyear said.

The strike, affecting about 8,000 workers, precipitated a riot last Thursday night in which at least 80 persons were injured. City police used gas shells and nightsticks to rout 3,000 strikers and sympathizers.

Ohio National Guard commandos stood ready for a possible call for Goodyear's opening today.

## Sane Judgment

Sherman H. Dairymple, the union's international president, said, "in my opinion the membership used sane and sound judgment in returning to work—it is not our way to make our gains by fighting in the street."

After approximately 3,000 union members voted on the board's recommendation to return to "their regular shifts," some 400 pickets were withdrawn from posts surrounding the massive plants.

Union executive committee also listed as "concessions" agreement of Goodyear to return 16 men "transferred out of (seniority) to former jobs, to discuss certificate with a union committee and to negotiate wage adjustments and review specific grievances in conflict with hitherto agreed policies.

The union said further negotiations were scheduled today. This the company denied, but said "we expect to continue negotiations in an orderly manner on any legitimate grievances that may arise."

The union board's statement concluded: "We believe that this strike was deliberately instituted to destroy our union. We shall not permit our people to be sacrificed in East Akron tomorrow."

"We shall ask for a complete investigation of the situation this past weekend by the senate civil liberties committee."

## KIDNAP-MURDER PROBE PUSHED

Police Explore Country-  
side; Medical Ex-  
perts Busy

(By Associated Press)  
NEW ROCHELLE, N. Y., May 31.—The investigation of the Peter Levine kidnap-murder moved forward today on three fronts—in the laboratory, outside and in the realm of deduction.

Medical experts pursued a painstaking microscopic examination of the boy's organs in the faint hope of finding some clue, such as poison traces, to the manner in which he was killed.

For miles around this suburban community, officers explored the countryside, searched the Long Island sound shore line, and questioned scores of persons in a hunt for other leads—the possibility of finding missing parts of the body or other clues; tracing the thin wire which bound the body; determining how the body got into the sound.

The Levine boy, 12-year-old son of a moderately well-to-do New York lawyer, disappeared Feb. 24. His body, lacking head, legs and arms, was washed ashore in the sound Sunday, many weeks after three ransom notes had been received.

In the field of deduction, a high investigating authority offered the theory that the crime was a "local job." His reasons:

1. Levine was not prominent outside the community;
2. The placement of the ransom notes indicated a detailed knowledge of the community;
3. The condition of the body and the wire indicated it had been submerged with a heavy weight; the hideout from which it was carried must have been near New Rochelle.

## Winners In Stork Derby Close Doors Against Salesmen

TORONTO, May 31.—(Canadian Press)—Salesmen are bearing down on the prize winners in the Millar will stork derby, with vacuum cleaners and pictures of bungalows, with deeds to farms and automobiles ready for delivery.

Four women, who tied with nine children each in the ten-year contest, were paid off yesterday with checks for \$100,000 each. Two other contestants, who failed to establish claims in court, received \$12,500 each on condition they drop pending appeals.

Piano salesmen and motor boat salesmen were among the early arrivals. A truck pulled up yesterday before the John Nagle's house with a big sofa and two chairs, ready to move in. A few minutes later it was parked near the John MacLean home on Strathmore boulevard.

Salesmen hustled from these two homes to the other two major winners, the Alfred Smiths and the Arthur Timlecks, and soon the four families locked the doors.

## DECREEES NLRB MAY WITHDRAW

Supreme Court Rules For  
Labor Board In Steel  
Litigation

(By Associated Press)  
WASHINGTON, May 31.—The supreme court ruled today that the National Labor Relations Board may withdraw from the third circuit court of appeals at Philadelphia litigation involving an order directing the Republic Steel corporation to reinstate 5,000 striking employees.

Justice Roberts delivered the opinion that reversed a decision by the circuit court judge refusing permission to withdraw and directing the board to proceed with the litigation by filing a transcript of the record. Justices Butler and McReynolds dissented and Justices Stone and Cardozo did not participate.

"The circuit court," Roberts said, "was without jurisdiction of the subject matter. If the board had complied with the orders made, a hearing would have resulted respecting the legality of supposed action of the board which was not in law or fact the final action, review of which the statute provides.

"No adequate remedy would be open to the board by way of certiorari from the court's ultimate review of an order which the board was authorized and desired to set aside."

## Study Court Decision

Officials studied the high court's decision to determine whether it also would apply to the board's effort to withdraw from the circuit court at Covington, Ky. litigation involving the Ford Motor company. In that case the board said it already had filed a transcript.

Withdrawal of the litigation, in order to adopt new procedure, was decided upon after the supreme court on April 25 had condemned procedure followed by Secretary Wallace in ordering a reduction of rates that commission men on the Kansas City stockyards could charge. The labor relations board wished to adopt new procedure in order to meet possible supreme court objections.

## AWAITS RETURN OF CHILD

Says \$10,000 Thrown  
From Auto In Florida  
Abduction

(By Associated Press)  
PRINCETON, Fla., May 31.—W. P. Cash said today the \$10,000 ransom demanded by the kidnapers of his five year old nephew, James Bailey Cash, Jr., had been paid.

The money was thrown from an automobile, he added, by the lad's father who made two trips over routes outlined in a map provided by the kidnapers.

## Awaits Release

Returning from the second drive, the father, wealthy merchant, reported the contact and said he expected to be notified momentarily of the release of his son, taken from his bed Saturday night.

The father appeared jubilant and confident young Cash's release was imminent.

"Everything is favorable," Cash said. "I wouldn't be surprised if he had been let out somewhere already. It's just a matter of waiting."

The money he presumably paid over was obtained from a Miami bank Sunday.

Blond, blue-eyed James Bailey Cash, Jr., was stolen from his bed while his mother went next door to help her husband close his grocery for the night. The kidnaper slit a screen, unlatched a door and took the pajama-clad boy away.

## Death Threatened

A note, one of three in the case, threatened death to the kid, known in the neighborhood as "Skeegie," if the father called authorities but Cash notified the Federal Bureau of Investigation at Miami, 25 miles north of here, and J. Edgar Hoover at Washington assigned a squad of inspectors who flew here Sunday.

Then early today, while G-men worked on the case and throngs of curious milled about this crossroads village of 600, a man presumed to be the abductor slipped the third note under the door of the Cash apartment, tossed a rock at a window to attract attention and fled into the underbrush.

The message, printed on a triangular piece of brown wrapping paper, ordered Cash to repeat maneuvers prescribed in an earlier note—to drive over a route specified on a map, blinking the headlights of his car at certain spots as a signal. Cash had done this in vain last night but the new note was understood to have complained of too many persons about.

## WHERE DO THEY FIND THEM?

Boys who used to want to be railroad engineers want to be airplane pilots now.

It was easy to think the old engineer was wondering why. He had finished his run and had bought a paper to read when he got home. On the front page was the story of the "most successful" bombing raid of the Spanish war.

Hundreds of non-combatants had been killed and mangled in a market place when huge bombers droned overhead, dropping explosives. There had been no combat—only helpless death. No one had a chance to fight back.

Airplane pilots—years of intensive training to learn to fly a plane to drop death from the sky on women and children. It doesn't make sense. To carry passengers safely, to bring the world closer together, to make life easier—that makes sense, good sense.

Where will the warmakers find their bomb dropers? Where are they finding them now? Is this modern youth's idea of glory?

## THE OTHER SIDE OF THE STORY

The speeches of T. M. Girdler and E. T. Weir before the American Iron & Steel institute's annual meeting were notices above the ordinary level of convention oratory.

They were distinguished by the unusual realism of the two steel men's approach toward their industry's problem of how to make its affairs understandable—and thereby to prevent misunderstanding.

Mr. Weir, particularly, made it plain that the best way to solve the problem is to let it solve itself by keeping the public fully informed concerning the steel industry.

This isn't a situation peculiar to steel. It affects all industries. While they have been busy developing the most efficient production on earth and paying the best wages, they have been losing the battle with theorists, reformers, class warriors and crackpot politicians by default.

Their idea now is that they can make up the ground they've lost by telling their story. That is, Mr. Girdler and Mr. Weir have that idea. Whether or not other steel men and other industrialists see eye to eye with them remains to be seen. Offhand, there doesn't seem to be anything else to do. Certainly, the industry baiters and class warfare fomenters are showing no signs of calling a truce.

## A RIDICULOUS SITUATION

A man who owned and operated a neighborhood grocery store wouldn't feel like licking tigers bare-handed if his town announced it was going to run him out of business by building a store across the street with public funds.

Specifically, he wouldn't feel like borrowing a lot of money to enlarge and improve his store—and if he did, who would feel like lending it to him?

Greatly simplified, this is the situation of the private electric utilities. They are in a field of service which has been only partly exploited. They have been made a political issue. They have been placed in competition with the government, which has vast resources of public money to spend to put them at a disadvantage.

In the lending-spending bill debate in congress, it has been proposed that no additional money be made available by government to hamper utilities. This proposal grew out of the fact that utility companies need to expand, but are blocked by fear of government interference which would ruin their investments.

The proposal has been opposed firmly by the administration, which is spending the people's money to coax back recovery with one hand and to stifle, with the other hand, a vast industry which would be glad to spend on its own account if it were assured the government would not continue to undermine its earning power.

No other situation demonstrates so clearly the confusion of purpose which has been allowed to develop in Washington.

Judging by the ruling influence of the planets, this should be a day of opportunity, with a very expansive atmosphere permeating all transactions. It is a time for fulfilling cherished desires in a business, personal or social connection. All pertaining to finance, education, entertainment, friendship and youth should flourish. Major objectives should be pushed with confidence.

## If This Is Your Birthday

Those whose birthday it is may find themselves facing a year of large plans and expansive ambitions. It is a good time to carry out ambitions in business as well as purely personal and social lines. Prestige, enjoyment and much happiness should crown noble efforts.

A child born on this day may be efficient and well equipped to reach the high goal of its ambitions through its productive and progressive efforts as well as its personal popularity and prestige. It should have a very fortunate and happy life.

## For Wednesday, June 1

This should be a lively and fairly progressive day, despite many perplexities, peculiar situations and probable delays and obstructions, according to the planetary positions. It may take subtlety, strategy or diplomacy to sidestep some tenacious obstacles in which friends may be involved. Vexations, trials and surprises loom. Travel may be necessary, and the clever manipulation of writings may serve to swerve dubious situations to the desired ends.

## If This Is Your Birthday

Those whose birthday it is may enjoy a fairly active and interesting year, although there may be frustrations, delays and surprising developments to cope with. ## HEALTH

By Dr. Royal S. Copeland, New York City.

## MYOSITIS

You have heard the terms "Charley horse" and "glass arm." These are used for the disability which follows excessive use of the arm muscles by a ball player or a writer. Sometimes it comes on suddenly because of an actual rupture of muscle cells in the arm. In an occasional case the muscle is torn from its attachment to the bone. Sudden, violent or strenuous use of a muscle will lead to soreness in the muscle.

The same symptom may follow exposure to cold, draught, wet or prolonged dampness. Myositis is the medical name for this soreness, which is due to an inflammation of the muscle. Persons who are sufferers from gout or rheumatic disorders are liable to have myositis. In many instances the condition is confused with neuritis, neuralgia and other painful disturbances.

The muscles of the arm are the ones most commonly involved, but any muscle of the body may be affected. In myositis the sufferer may be kept from sleep because of discomfort or actual pain in the involved muscle.

Only Moderate. Fortunately, the discomfort is only moderate. As a rule, the symptom disappears within a short time. But in a severe case the victim may be confined to bed for several weeks. To relieve the discomfort the inflamed muscles should be gently massaged. Although the pain may be increased at the beginning, relief soon follows. This massage should be given at least twice a day. Some form of heat should be used.

A soothing liniment rubbed into the muscle or the application of a poultice may be beneficial. These are helpful, old-fashioned methods of treatment. Another is the use of a hot iron over the painful muscle. A thick piece of flannel is first placed as a pad over the muscle. The hot iron is then carefully applied over the tender area. Of course, great care must be taken to prevent burning the skin. In this ailment, as well as many others, prevention is far simpler than cure. When the lure of spring calls baseball enthusiasts to the field, it is well to remember the danger of being too strenuous at first. Overactivity may lead to painful disability. It is best to "warm up" gradually and increase the exercise.

**"YOU SHOULD SEE WHAT I SAW WHERE CAMELS ARE MADE"** BY *Eddie Cantor*

AMERICA'S LAUGH KING, Eddie Cantor, has his serious moments too. His uproarious "Cantor's Camel Caravan" broadcasts (every Monday night—Columbia Network) command respect because of his sincerity in his work. And Eddie's truly sincere in his self-termed job of "Camel Radio Salesman." Says salesman Cantor, "Everything isn't too much to know about a cigarette like Camel." Eddie took a trip to Winston-Salem, home of Camel cigarettes. Here is what he saw—

by insurance. When you reach retirement under the Reynolds plan, the company sends you a check each month for the rest of your life. It's certainly great to be a Camel worker! COSTLIER TOBACCOS? Has Camel got costlier tobaccos? Listen—I'm looking at it, folks, in the picture above. And there's a hundred million dollars' worth of it right here at Winston-Salem. That tobacco looks

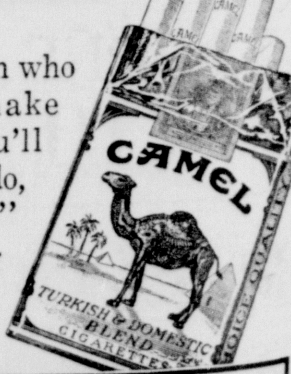

so g-o-o-d, smells so g-o-o-d. If you're smoking a Camel, you're smoking some of those finer, costlier tobaccos right now. How do they keep this tobacco "just right," the way you like it? They make the workroom "weather" themselves with a wonderful air-conditioning plant. And, besides, they actually wash the air every few minutes. Do the Camel folks like to work in that place! In the last pic-

ture, I'm watching those costlier Camel tobaccos going into finished cigarettes—millions and billions of them. There's a lot of pleasure coming out of those machines, I said to my guide. IN FACT, YOU CAMEL PEOPLE AND I ARE REALLY IN THE SAME BUSINESS—MAKING MORE PLEASURE FOR MORE PEOPLE!"

**Have a Camel! See for yourself why there's more real pleasure—more out-and-out enjoyment—in Camel's matchless blend of finer, more expensive tobaccos—Turkish and Domestic.**

See why tobacco planters, men who grow and know tobacco, make Camel their cigarette. You'll say, as millions of smokers do, "Camels agree with me." Camel is America's largest-selling cigarette!

**Don't miss Cantor's Camel Caravan Monday nights! See radio listing in your local paper for time.**

# Light, Practical Equipment Adds Pleasure To Summer Fishing Trip

## LIGHT TROLLER IS ADVANTAGE

Clarke Motor Provides Power And Pep And It's Not an "Elephant" To Lug Around

This article is primarily for sportsmen—those individuals who, every once in a while, like to "get away from it all" and lose themselves in the backwoods somewhere, tramping and fishing.

It concerns the Clarke troller, lightest ready-to-go outboard made in the country, made for sportsmen who like to get around without the necessity of taking a couple of freight cars along to carry their equipment.

The Clarke troller is made particularly for these chaps. It weighs under 10½ pounds and stands only 21 inches over-all. You can put it in your duffle bag, on the floor of your car, or, for that matter on the living room rug at home—and it won't leak!

It is powerful, develops 12 horsepower and operates for a half-cent mile.

And the point here is that it's not necessary to lug around a couple of filling stations in order to keep supplied with fuel.

The motor actually develops its rated r. p. m. and horsepower at the propeller, and that, Mr. Sportsman, is what drives your boat. This motor develops its peak horsepower at 2450 r. p. m. and since the propeller is mounted on the crankshaft, this is also the propeller speed.

This moderate r. p. m. means lower piston speed, hence longer life for all moving parts.

The E. L. Grate Motor Co., is showing the Clarke troller here and will be glad to give anyone interested full particulars concerning its operation, with no obligation.

SALEM, Ore.—Four years with the Civilian Conservation Corps left Capt. Glenn Wood with this opinion: "Southern boys have better manners than those from the North or West. They also have more respect for their superior officers."

### BOAST HONEST RADIO REPAIR

Art's Experienced Staff Can Be Depended Upon If It's Ques-Of Radio

When one goes to an expensive large or small—of having a radio serviced, rebuilt or installed they don't want to have something go wrong right away. Often the inconvenience or loss of radio enjoyment is more provoking than the money thrown away.

Radio owners do not care to have a service man bluff them in making repairs, telling them a radio is faulty or in perfect condition when the service man knows he has been "stretching the truth". Good radio performance is wanted whenever it can be had for a fair price—to both the radio owner and the service man.

Owners of home and auto radios know work will be satisfactory when it is taken to Art's Jewelry Store. Here experienced radio repairmen, who know just what must be done, do all radio repair work and make installations. There is no effort to kill time when they know only a minor adjustment will correct all trouble.

The Memorial day holiday is here and gone and, it might be said, the summer motoring season is duly and officially inaugurated. Automobiles have reached a high standard of perfection but it's still necessary to use oil and grease frequently. How-

### TUNE-UP TIME FOR MOTORISTS

Let Harris Garage Put Your Car in Condition for Trouble-Free Miles This Summer

"There's a long, long trail a-winding" for the summer motorist and it won't be long now until, back of a purring engine, he's chasing down that trail to vacationland. The automobile is an indispensable vacation adjunct any more. It can add miles and miles of happy experiences—if it's working all right. If it's not, it can make a nightmare out of everything.

But there's no reason why it shouldn't work all right with a garage like Harris' on W. State st. to put it into the condition you desire.

A visit to the Harris garage can be your insurance against auto trouble on any trip this summer, long or short.

The Harris garage is one of the most completely equipped in the district. It specializes in repair work of all types on all cars. It has assembled one of the finest, most qualified service department crews possible and stands back of its work.

The motorist who looks forward to trouble-free miles this summer will make it a point to let Harris tune up his car now.

### FIND BARGAINS AT NURSERIES

Damascus Nurseries Have Unusually Large Number of Seasonal Offerings on Hand

Storage cellar and other facilities at the Damascus Nurseries on the Alliance road at this season are making it possible for the firm to give unusual offerings for buyers of this district.

The company reports that an exceptionally large amount of nursery stock is in peak of condition now because of the storage cellars and equipment for keeping plants dormant. Large fields and stocks of evergreens also present many fine landscaping pieces ready now for planting.

Evergreens which are now at the best stage for planting include Arbor Vitae, fir, juniper, spruce, taxus and hundreds of varieties within those and other general evergreen classifications. The nursery's selection of roses, hybrid teas, climbers, baby ramblers and other similar flowers is one of the finest to be found anywhere.

Buyers of garden plants, shrubbery, landscape plantings and fruit trees can save themselves considerable money, postage costs and replacement necessity by buying right here at home—at the Damascus Nurseries. Visitors are welcome at all times and suggestions for plant-

ing and landscaping will be given by the firm.

### Chrysler Comfort

A combination of improved insulation and scientific ventilation makes Chrysler cars comfortable in any weather, according to Don Smith, service manager of the Smith garage on East Third st.

More insulation and more different kinds of insulation material are used in the 1938 Chrysler Royal and Chrysler Imperial than ever before. Because the windows both in the front doors and the rear quarters may be individually regulated, each passenger can get just the amount of air he prefers.

## SUMMER BRINGS ERA OF WHITES

Light Clothing In Fashion, But Fashion Demands They Be Kept Clean and Fresh

White garments are now the fashion. And when they're white nothing seems more cool or appears more fresh.

But they must be white, fresh and neatly finished. To keep them so, more than ordinary care must be taken. No short cuts by the cleaner, nor hurrying in the finishing is possible if the tailored effect, so necessary, is to be retained.

Manager L. C. Price of the Paris Cleaners has done everything possible to be certain nothing known to the dry cleaning industry is left undone which will result in perfect work with these summer fabrics.

Spotting is all important with white goods and this, Price points out, should not be attempted with ordinary cleaning fluids. While these fluids undoubtedly serve their purpose, they are not designed to replace the science and skill of capable cleaners who know how to work with spotting chemicals and various types of fabrics.

Summer clothing, to be cool, must be clean. Dirt of any kind fills the pores of the fabrics. And, too, if the dirt and grit are not kept out, they soon cut the fragile fabrics of the cloth.

Nothing looks more "sloppy" than wrinkled or soiled summer clothing. Nothing looks more comfortable and flatter than freshly cleaned and well finished warm-weather garments.

Kent State university, spent the weekend with her parents, Mr. and Mrs. J. O. Hagedorn.

**Music Club Picnic**  
The Columbiana Music Study club will hold a picnic Friday at Firestone park with members of the Jenny Lind club as guests. Mrs. D. H. Hepburn, Mrs. R. J. Esterly, Mrs. G. G. Patchen and Mrs. Emma Kenrich are the committee.

The L. L. class of the Presbyterian Sunday school met at the church with Mrs. Elmer Detweiler, Sr., presiding. Mrs. Wick Fry led devotionals and Mrs. R. F. Riffle gave an interesting travel talk in costume of her recent trip abroad. Lunch was served by the hostesses: Mesdames R. E. Weaver, S. R. Walker and Ira Tullis. The next meeting June 23 will be a breakfast at Chestnut Hill pavilion, Mill Creek park. Mrs. Clyde Barrow is chairman of the committee on arrangements.

# SALEM POLO CLUB TIES FOR LEAD IN LEAGUE

## LOCAL RIDERS TAKE 2 GAMES OVER WEEKEND

### Salem Polo Club Sweeps Series With Pittsburgh Wexford

Getting away to a good start in the Penn-Ohio Polo league, the Salem Polo club registered victories over Pittsburgh Wexford in games Sunday and Monday at the Salem field on the N. Ellsworth rd. The local riders defeated Wexford, 6 to 3, in their Sunday game and added another triumph Monday by walloping the Pennsylvanians, 14 to 4. Large crowds attended both contests.

The two victories placed the Salem club in a tie with the Old Firm club of Zelenopolis, Pa., for first place in the Penn-Ohio standings. Zelenopolis also gained two wins over the weekend, defeating the North Hills of Pittsburgh in two games.

Battery C of Alliance and the Bar-C Cowboys of Akron, who will meet the Salem riders in their next home game, June 12, are currently tied for third place in the standings after breaking even in their games over the weekend. The Alliance club posted a victory in the Sunday contest, while Akron came through with a win Monday.

Jim Pidgeon paced the Salem riders to their victory over Pittsburgh Sunday, scoring four of the local teams six goals. Ray Moff accounted for the other two tallies. Pidgeon sent the willow ball bounding through the uprights three times and Moff scored once in the first chucker to send the Salem club away to an early lead in the Sunday game.

Pidgeon scored twice in the opening frame as Foster and Brock pushed the ball between the goals. Neither team tallied in the second frame, but Pittsburgh came through with a goal in the third chucker to cut Salem lead to 4-3. The Salem riders again went two goals out in front when Pidgeon tallied in the fourth frame. Both teams went scoreless in the fifth chucker and Salem sewed up the victory on Moff's goal in the sixth.

Tony Sheen carried off scoring honors in Monday's one-sided victory, although brilliant supporting play by Brooke Votaw and Moff was an important cog in the Salem team's win.

The local riders tallied in every chucker in posting their easy Memorial day victory. They scored two goals in the first frame, two in the second, three in the third, two in the fourth, two in the fifth and three in the sixth.

Pittsburgh went scoreless until the fourth frame when Foster tallied twice. Foster added other goals to Wexford's count in the fifth and sixth frames.

Sheen celebrated a glorious Memorial day by tallying six goals for Salem. Moff and Pidgeon each tallied three times, while Votaw scored once. A pony goal in the sixth frame gave the Salem team its other point.

Both teams used four men in the Sunday game, but cut their teams to three men Monday because of injury to two of Pittsburgh's horses.

**Ross-Armstrong Battle Tonight**

NEW YORK, May 31.—The city having been blinking in unaccustomed sunlight for two whole days, there is good reason to believe that Barney Ross and Henry Armstrong finally will fight their welterweight title duel tonight at Madison Square Garden bowl.

If the weather should intervene again, it is about as good a bet as any that Promoter Mike Jacobs will tear out his few remaining hairs and postpone the affair for a couple of months. Already it has been encephalitis far too close to the Scheinberg-Lou date, June 22, for Mike's peace of mind, and the forecast for tonight is none too promising.

Despite all the hard luck, tonight's scrap still shapes up as a sure fire crowd pleaser, although the probability of a knockout is being discounted.

Ross, due to enter the ring at around 142 pounds to Armstrong's anticipated 134, continues a steady 7-to-5 choice.

BY CHARLES DUNKLEY  
INDIANAPOLIS, May 31.—Checks that probably will total between \$25,000 and \$38,000 were being signed and sealed today for delivery to brawny, 38-year-old Floyd Roberts, former Sunday school teacher from Van Nuys, Calif., who rode to a record-breaking victory yesterday in the annual 500-mile Indianapolis speedway race.

## LEUL JUNIORS BEATEN AGAIN

### Salem Team Suffers Defeat In Game at Martins Ferry

Suffering their worst defeat of the still-young season, the Salem Leul Juniors fell before Martins Ferry Univera Juniors, 23 to 7, in a Midwestern Roumanian Baseball league game at the Ohio River city Sunday.

It was the second straight defeat for the Salem team, which dropped its first league game to Homestead, Pa.

Nine errors by Salem players aided the Martins Ferry Juniors to post their victory. The Ohio river lads collected 17 hits from the offerings of Pitcher John Trombitas of Salem.

The Martins Ferry team sewed up the victory in the second inning of the contest when they brought 10 runs across the plate.

**Wilson St. Tigers Lose Sunday Game**

Meeting their first out-of-town opponent, the Wilson St. Tigers lost to the Washington Blues, 9 to 5, at Centennial park Sunday.

J. Drakulich pitched for the Tigers and allowed eight hits. Atkinson was the winning hurler for Washingtonville, granting seven safe blows. Reese hammered out three hits in as many trips to the plate to lead the Blues in batting.

The payoff will come tonight when the 33 drivers who started the contest gather for the annual post-race dinner.

As the roar of 11 other racing motors and cheers of upward of 135,000 fans sounded in his ears, Roberts sped down the mile straightaway shortly after two o'clock yesterday afternoon to get the checkered flag of victory with an average of 117.200 miles an hour.

His speed wiped out the old record of 113.580 miles an hour set last year by Wilbur Shaw of Indianapolis. Shaw finished second yesterday, about five miles behind.

The day's only fatality came when a wheel flew from the car driven by 27-year-old Emil Andres of Chicago and killed a spectator.

The victim was Everett Spence, 33, Terre Haute (Ind.) probation officer.

The car went through a fence on a curve and overturned three times. Andres was taken to a hospital with a broken collarbone, two broken ribs, a bruised lung and a slight fracture of his upper jaw. His condition was reported fairly good today.

Chet Miller of Detroit came in third, Ted Horn of Los Angeles fourth and Chet Gardner of Long Beach, Calif., fifth.

Only the first five drivers completed the 500 miles. Rain which began just after Roberts finished caused speedy officials to flag the other seven off the track.

The other five to share in prize money, in the order in which they placed, are Herb Ardinger of Pittsburgh, Harry MacQuinn of Milwaukee, Billy Devore of St. John, Kas, Joel Thorne of Tucson, Ariz., and Frank Wearne of Pasadena, Calif.

### "Grizzle Queen" Cops 1st Place In Race From Dayton Sunday

"Grizzle Queen", a six-year-old hen, flying to the loft of C. W. Cozad, was the winner of the 200-mile pigeon race from Dayton on Sunday, with "Boot Leg" from the Richard Fisher loft of Columbiana placing second. "Bob White", from the loft of Ed Sargeant won the third diploma.

The birds made good time considering the strong east wind they had to fly against. They were liberated at Dayton at 6 a. m., and the winner was clocked at 12:12, flying the distance in six hours, 12 minutes for a speed of 91.746 yards per minute or about 35 miles per hour.

## MOTORS SUFFER TWO SET-BACKS SUNDAY, MONDAY

### Althouse Nine Loses Columbiana County Loop Game to Negley

Apparently unable to cast off the bonds of defeat, the Salem Althouse Motors came out on the short end of the score in games Sunday and Monday.

The Motors suffered their third straight loss in the Columbiana County Baseball league Sunday, losing a hard-fought overtime game to Negley, 5 to 4.

Playing a non-league game Monday, the Salem nine was blanked by the Columbiana, Fullertons, 9 to 0, at Firestone park in Columbiana.

Negley gained its victory over the Motors Sunday in an extra-inning after rallying in the seventh and eighth frames to tie the score at 4-4. The Salem nine held the lead up until the seventh frame on the strength of two runs in the first inning and one each in the third and fifth frames.

Wally Davis worked the full 10 innings for the Motors and turned in a capable performance in holding Negley to 10 hits and striking out nine batters. Evans was on the mound for Negley. He allowed 11 hits and fanned 10 batsmen.

The Motors were unable to solve the tosses of Pitcher Burkhardt of Columbiana in the Monday game and collected only four hits as they went down to defeat. The Fullerton nine hammered Pitchers Orrie Snyder and Duane Loudon of Salem for 12 hits.

The Motors committed 10 errors to assist the Columbiana nine in gaining the victory.

### Courtney Fans 11 Rival Batsmen, But Loses Decision, 4-3

Despite a brilliant pitching performance by Courtney, the Lew Sheen baseball team lost out to the Sheen Eagles of Harrisburg, 4 to 3 at the Sheen field Sunday.

Courtney struck out 14 batters and allowed only five hits in going the distance on the mound for the Sheen nine.

## GOSHEN CLASS HEARS ADDRESS

Rev. Amos Henry Speaks At Baccalaureate Exercises

DAMASCUS, May 31.—"Building for the Storms" was the theme of the baccalaureate sermon at the High school auditorium Sunday evening.

Rev. Amos Henry, pastor of the Friends church, delivered the address, taken from the text, "The Fear of the Lord is the Beginning of Wisdom."

Rev. Henry said, "Society and individual struggle against adverse elements. The dead calm is more to be feared than the storm because under its influence men cease to be imaginative and courageous and they build unworthily. There is no security apart from character and God is the fountain head of morality, righteousness and wisdom."

"The members of this class must experience individual storms built worthily; build low with humility, build wide with breadth of character; build with length into eternity; finally, build securely on the rock, Christ Jesus."

The program was: Invocation, Rev. B. H. Shadduck; music, "Saviour Lead me," quartet composed of Mr. and Mrs. C. L. Cosand, Miss Gladys Haldeman and Earl Santee.

Scripture reading, Rev. B. H. Shadduck; vocal solo, "The Blind Pilgrim," W. W. Alspaugh; address, "Building for the Storms," Rev. A. M. Henry; music, "Thine Is the Glory," Methodist choir, directed by Allen West; benediction, Rev. Harlan Mosher.

## SALEM HONORS ITS WAR HEROES

Memorial Day Services Are Held at Two Cemeteries

(Continued from Page 1)

"The first thing which comes to my mind, as a legitimate result of a thoughtful, reverent observance of Memorial day, is this: the cost of whatever is worthwhile."

"We cannot sit down, fold our hands and keep what we have. Eternal vigilance is the price of liberty. One great lesson the citizens of this democracy need to learn is that the affairs of government do not run themselves, and specially not for the great mass of mankind."

"Let this Memorial day be a new birth of loyalty, not merely party loyalty; but national loyalty. We will have to fight to keep what our fathers, what our soldiers, fought to win."

Rev. Magann, speaking at the afternoon service at Hope cemetery, said in his talk on "The Democracy For Which They Died": "To honor our dead today we should cherish a burning conviction akin to that of the immortal Lincoln who said at Gettysburg, 'We here firmly resolve that these dead shall not have died in vain.'"

"There were 10,004,771 men killed in the World war. Someone has estimated that if they should march 10 abreast, spaced two seconds apart, it would take 49 days for them to pass a given point. Many of them gave their lives believing that their sacrifice would make the world safe for democracy. For the realization of this ideal, any patriotic soul should be willing to die. However, we need to be aware of the fact that democracy is dead in some and rapidly dying in many other countries of the world."

Brotherhood Fails

"We have believed that the cultivation of universal brotherhood would pave the way for the spread of democracy, but experience points to the fact that human brotherhood, as a universal ideal, has failed. It has been truly said that brotherhood is a reciprocal relation and you cannot be a brother to a man who refuses to be a brother to you."

The parables of Jesus point to the weakness of human brotherhood. Aware of this weakness He calls his hearers to something higher, "Be ye therefore perfect, even as your Father which is in heaven is perfect." In this He calls for volunteers who will seek to possess the paternal spirit of God.

This spirit gives without hope of return; it is one of great patience, forgiveness and love. It is a spirit that demands even more courage than the call to arms.

"Yet, the possession of this spirit is our only means of preserving the

democracy for which they died. Jesus demonstrated it on earth in human form and has made it available for all mankind. If we, in honoring our dead, resolve to possess this paternal spirit in our personal, national and international affairs, then they shall not have died in vain and we can preserve the democracy for which they died.

Lincoln's Gettysburg address was read yesterday afternoon by Lonel Difford, Salem High school student. A musical selection was given by the high school band. The G. A. R. auxiliary held a short memorial service and a salute to the dead was given by the Sons of Veterans. Everett J. Rich acted as chaplain.
